

Business Development, Innovation and SMEs	The programme shall address Green Industry Innovation and Blue Growth. The programme shall also address Welfare Technology or Ambient Assisted Living to be further defined during the concept note phase.	Applied. The open calls in these fields have been announced.
	The programme shall include a small grant scheme targeting female entrepreneurs.	Applied. The open call for small grants for women has been announced.
	The possibility of using financial instruments shall be explored when developing the concept note.	The possibility of using financial instruments has been explored by the PO in 2018 with involvement of NFP , DPP and FMO. This has been done in writing as well as in a dedicated meeting on 8 June 2018. The issue was also discussed in the Annual Meeting on 12 September 2018 during which it was reiterated by the Polish side that using financial instruments in the business development sector would be challenging in terms of receiving good results in the field of both energy and business, as well as in terms of realization of bilateral ambitions. DPP - Innovation Norway supports PARP's assessment based on knowledge and experience from implementation of the second edition of Norway Grants Programme in Poland in years 2009-2014. All the arguments have been described in the Concept Note submitted to the FMO in December 2018. The conclusion was that using the financial instruments in this Programme is not recommended as in Polish circumstances it is not an appropriate tool to achieve the set goal: increased value creation and sustainable growth among Polish SMEs.
	The possibility of pre-defining project(s) shall be explored when developing the concept note including in areas related to research.	The PO together with the NFP analysed the project that had been considered at the previous stage for the NFM 2014-2021 preparations and negotiations with the Norwegian partners. It has been decided not to develop further the concept of this project in the Business Programme as similar initiative has been considered after stakeholders consultation in Research Programme being more appropriate to address the area of effective use and capacity development of research infrastructure as well as creating bridge between science and business.
	Programme Operator encourages synergies with other programmes in Poland, including for Environment and Energy and Climate Change and Research.	The synergies with other programmes are developed by informing other Programme Operators about the planned scope of their calls and eligible applicants (e.g. PARP participated in informational meetings for potential applicants of NCBR call for proposals – Programme Operator of Applied Research Programme). The synergies were also sought in the field of the Programme content with Environment Programme – PARP participated in the study visit to Norway organised by the Ministry of Climate concerning solutions in circular economy. Moreover, the Programme Operators shared experience on operational implementation issues, but also on substantive matters such as practical information on state aid rules. For example PARP benefited from the experience of the Programme Operator of Environmental Programme in the aid for environmental protection.
Research	The programme shall, inter alia, include support to research in the following areas: polar research, research on carbon capture and storage (CCS) and social sciences.	Applied. 1. polar research were supported in the core call (GRIEG) in the Basic Research Programme. 2. separate call regarding CCS was announced under the Applied Basic Research. 3. social sciences are be supported in the core calls in both research components (GRIEG in Basic Research and POLNOR in Applied Research) and in the IdeaLab call under Basic Research.
	The programme shall support basic research (40% of the total eligible expenditure) and applied	implementation of the programme is divided into two components: basic and applied

	Pursuant to Article 1.5.2 of the Regulation that the Programme Operator shall ensure that any additional provisions to the implementation of the Programme shall be kept to a minimum, and to this end the Donor Programme Partner shall be closely involved in and effectively contribute to the development of the project contract template and other templates of document(s) relevant to the implementation of the programme, especially those affecting the relation of the project promoter and partner(s).	During the preparation phase the NCN and NCBR closely cooperated with the National Focal Point and the Research Council of Norway and consulted all the relevant documents.
	Programme Operators of the Basic Research Programme and Applied Research Programme in Poland closely cooperate during the implementation of the programme.	NCN collaborated closely on daily basis with the National Centre for Research and Development (NCBiR) - PO of the Applied Research to ensure consistency of the Basic and Applied Research programmes, e.g. representatives of both institutions attended their Programme Committees' meetings, representatives from NCBiR participated in the NCN IdeaLab workshop. In addition one bilateral meeting was organised in Warsaw in order to exchange experiences related to the financial and administrative issues of the programme implementation.
	Programme Operator, before publishing the SGS 'POLS' presents to the Programme Committee a thorough assessment of the added value of this measure vis-à-vis similar national initiatives (offered by the Polish National Agency for Academic Exchange (NAWA)) and other European initiatives, in order to establish whether there is a justifiable funding gap for the activities proposed by the SGS 'POLS'.	<i>Basic Research</i> programme: before starting preparation to the SGS POLS, the National Science Centre presented a thorough assessment of the added value of the SGS POLS to the Programme Committee. After reviewing the provided analysis, the Programme Committee decided to announce the SGS POLS call in March 2020. Call has been completed.
