

## MATRIX OF INDICATORS FOR THE ACTION PLAN

| Number               | Level of indicators  | Indicator | Unit of measurement | Source of verification | Frequency of reporting | Baseline<br>year | Baseline<br>value | Target<br>value |
|----------------------|--|-----------|---------------------|------------------------|------------------------|------------------|-------------------|-----------------|
| Project<br>objective | Improved<br>responsiveness<br>of local<br>government/<br>administration<br>to citizens'<br>needs |           |                     |                        |                        |                  |                   |                 |
| Outcome              | Optimisation of local public administration supported  |           |                     |                        |                        |                  |                   |                 |
| Output 1             |  |           |                     |                        |                        |                  |                   |                 |

| Number   | Level of indicators | Indicator | Unit of measurement | Source of verification | Frequency of reporting | Baseline<br>year | Baseline<br>value | Target<br>value |
|----------|---------------------|-----------|---------------------|------------------------|------------------------|------------------|-------------------|-----------------|
| Output 2 |                     |           |                     |                        |                        |                  |                   |                 |
| Output 3 |                     |           |                     |                        |                        |                  |                   |                 |
