

List of auxiliary indicators for Development Plan

While preparing matrix of indicators for the Development Plan under the „Local Development” Programme the applicant should select indicators first of all from the „List of principal indicators”. In case there is no principal indicator adequate to planned activity, the applicant may use indicator place at the „List of auxiliary indicators” or formulate relevant indicator by itself.

Area	Indices used to analyse factors	Data source	Specialisation of the municipality (tourism and recreation – T, industry – P, innovation – I, revitalisation – R)	Position in the logic of intervention
Potential and competitiveness of the local economy	Newly commissioned commercial space	CSO ordered data	P/I/R	Outcome, Impact
	MAP: location of public utility buildings meeting the accessibility standards	District Construction Supervision Inspector – with regard to issued permits for the use of public utility buildings and their compliance with the Regulation of the Minister of Infrastructure of 12 April 2002 on technical conditions to be met by buildings and their location	P/I/R /T	Outcome
	Number of renovated buildings intended for economic activity	District Construction Supervision Inspector – with regard to issued permits for the use of buildings intended for economic activity	P/R	Outcome
	Area of investment sites created in reclaimed sites	Starost – with regard to issued reclamation decisions and decisions on the completion of reclamation; Unit for spatial planning in the municipality – with regard to completed	P/R	Outcome

		proceedings on amending the local zoning plan resulting from the change in the purpose of reclaimed land for non-agricultural and non-forestry purposes;		
	Number of enterprises starting up activity in reclaimed sites intended for investment purposes	District Construction Supervision Inspector – with regard to issued permits for the use of buildings intended for economic activity in a given area	P/R	Outcome
	Number of buildings and post-industrial areas developed for the purposes of pursuing economic activity	District Construction Supervision Inspector – with regard to issued permits for the use of buildings intended for economic activity in a given area	P/R	Outcome
	Number of unemployed persons, who established their own company	District Labour Office – with regard to data from the Register of concluded agreements for allocation of one-time funds for starting up economic activity	P/R	Outcome
	MAP: Location of leased and vacant municipal dwellings	Unit for real estate management in the municipality – with regard to the list of business premises and concluded lease contracts for these premises	P/R	Outcome
	MAP: Municipality business premises in municipality-owned buildings	Unit for real estate management in the municipality – with regard to the list of business premises	P/R/T	Output
	Natural persons pursuing economic activity per 100 working age persons	CEIDG/Unit for registration of population – with regard to data from the Register of residents of the municipality	P/I/R	Outcome, Impact
	Natural persons pursuing economic activity per 1,000 residents	CEIDG/Unit for registration of population – with regard to data from the Register of residents of the municipality	P/I/R	Outcome, Impact
	MAP: Location of leisure industry enterprises	REGON – list of economic entities registered with PKD 2007 section R (Activity related to culture, entertainment and recreation)	T/I/R	Outcome, Impact
	MAP: Location of newly created creative industry enterprises	REGON – list of economic entities registered within a given calendar year in the following PKD sections: 47.78.Z 58.11.Z 58.13.Z 58.14.Z	P/I/R	Outcome, Impact

	58.19.Z 58.21.Z 59.11.Z 59.13.Z 59.14.Z 59.20.Z 60.10.Z 60.20.Z 71.11.Z 73.11.Z 73.12.A 73.12.B 73.12.C 73.12.D 74.10.Z 74.20.Z 90.01.Z 90.02.Z 90.03.Z 90.04.Z 91.01.A 91.01.B 91.02.Z		
MAP: Location of social cooperatives, both those existing over the last three years and newly established	National Court Register – Register of entrepreneurs	R/T	Outcome, Impact
MAP: Location of entities of the social economy	National Court Register – Register of entrepreneurs	R	Outcome, Impact
MAP: Location of points of services characteristic of degraded areas (pawnshops, loans, gambling, cheap clothes)	REGON – with regard to entities pursuing economic activity under PKD 92.00 Z (slot machines, bookmaking services), 64.92 Z (other forms of granting loans – outside the banking system) Municipality Committee on Problems Related to Alcohol	R	Outcome, Impact

		Consumption – register of issued permits to sell alcohol.		
	Number of corporate social responsibility projects	Own studies	P/I/R	Output
	MAP: Location of enterprises implementing corporate social responsibility projects for residents	Own studies	P/I/R	Output
	Number of economic entities specialising in sale of regional products	Own studies	T	Output
Labour market and qualifications of labour force	Job offers (as of the end of the year) per 1,000 residents of the district	District Labour Office – with regard to data from the Register of job offers CSO – Local Data Bank with regard to the number of residents of the district	P/R /T	Outcome, Impact
	MAP: Location of job offers submitted to the District Labour Office by place of pursuing activity by companies registered in the municipality	District Labour Office – with regard to data from the Register of job offers	P/R	Outcome
	Number of persons using professional development centres	Own studies of selected establishments included in the Register of schools and educational establishments	P/R/T	Output
	Number of registered unemployed persons under 25 years per 1,000 residents of the municipality	District Labour Office – with regard to data from the Register of unemployed persons Unit for registration of population – with regard to data from the Register of residents of the municipality	P/R	Outcome, Impact
	MAP: Location of modernised professional labs	Own studies of selected establishments included in the Register of schools and educational establishments	P/I	Output
	MAP: Location of vocational secondary schools with the information on the number of students	Own studies of selected establishments included in the Register of schools and educational establishments (miasta na prawach powiatu – unit for education with regard to data from the Register of schools and vocational establishments)	P/R	Output
	Share of registered long-term unemployed persons in the total number of unemployed persons	District Labour Office – with regard to data from the Register of unemployed persons	P/R	Outcome, Impact

	Dynamics of registered long-term unemployed persons in the total number of unemployed persons	District Labour Office – with regard to data from the Register of unemployed persons	P/R	Outcome, Impact
	Number of registered unemployed women per 100 residents	District Labour Office – with regard to data from the Register of unemployed persons	P/R	Outcome, Impact
	Number of registered long-term unemployed persons in the third profile	District Labour Office – with regard to data from the Register of unemployed persons	P/R	Outcome, Impact
	Number of registered unemployed persons under 30	District Labour Office – with regard to data from the Register of unemployed persons	P/R	Outcome, Impact
	Number of registered unemployed persons over 30	District Labour Office – with regard to data from the Register of unemployed persons	P/R	Outcome, Impact
	Number of registered unemployed persons aged 50 and more per 1,000 residents	District Labour Office – with regard to data from the Register of unemployed persons/Unit for registration of population – with regard to data from the Register of residents of the municipality	P/R	Outcome, Impact
	Number of registered disabled unemployed persons per 1,000 residents	District Labour Office – with regard to data from the Register of unemployed persons/Unit for registration of population – with regard to data from the Register of residents of the municipality	P/R	Outcome, Impact
	Number of registered unemployed persons with lower secondary or lower education per 1,000 residents	District Labour Office – with regard to data from the Register of unemployed persons/Unit for registration of population – with regard to data from the Register of residents of the municipality	P/R	Outcome, Impact
Financial situation of residents	Number of persons using social assistance due to their poverty per 1,000 residents	Social Assistance Centre – with regard to data from the Register of decisions of persons using social assistance benefits /Unit for registration of population – with regard to data from the Register of residents of the municipality	R	Outcome, Impact
	Number of granted allowances in a form of sponsored meals	Social Assistance Centre – with regard to data from the Register of decisions of persons using social assistance benefits	R	Outcome

	Average monthly gross salary	CSO LDB – on the district scale https://bdl.stat.gov.pl/BDL/metadane/cechy/ -> Salaries and social benefits -> Salaries On the municipality scale – CSO ordered data	P/T/R	Impact
	Average monthly gross pension	Social Insurance Institution – ordered data on the municipality scale	R/T	Impact
	Percentage of persons receiving care allowance	Social Assistance Centre – with regard to data from the Register of decisions of persons using social assistance benefits	R	Outcome, Impact
	Number of persons receiving permanent allowance per 1,000 residents	Social Assistance Centre – with regard to data from the Register of decisions of persons using social assistance benefits/Unit for registration of population – with regard to data from the Register of residents of the municipality	R	Outcome
	Number of persons receiving earmarked allowance per 1,000 residents	Social Assistance Centre – with regard to data from the Register of decisions of persons using social assistance benefits/Unit for registration of population – with regard to data from the Register of residents of the municipality	R	Outcome
	Number of children in schools receiving social scholarship per 1,000 residents	Social Assistance Centre – with regard to data from the Register of decisions of persons using social assistance benefits/Unit for registration of population – with regard to data from the Register of residents of the municipality	R	Outcome, Impact
	Number of granted alimony fund benefits per 100 residents	Social Assistance Centre – with regard to data from the Register of persons receiving alimony fund benefits/Unit for registration of population – with regard to data from the Register of residents of the municipality	R	Outcome, Impact
Local finance (ability to finance development)	Amount of funds for villages in the village fund	Unit for the municipality budget – with regard to data on the amount of village fund	T/R	Output
	Amount of expenses under the village fund	Unit for the municipality budget – with regard to data on the execution of the budget under the village fund	T/R	Output
	MAP: Location of projects co-financed from the EU funds	Unit for the municipality budget – with regard to data on	T/P/I/R	output

		the execution of the budget for programmes and projects implemented from the funds of the European Union budget		
Availability and quality of services and infrastructure	MAP: Number of educational buildings in poor technical condition	Unit for education – data with regard to renovation needs of educational establishments to be included in the draft municipality budget	P/I/R	Outcome
	MAP: Location of cultural NGO	Unit for cooperation with NGO – data from the Register of associations	I/R /T	Output
	MAP: Location of initiatives promoting local heritage or strengthening the identity (open competitions for offers)	Unit for cooperation with NGO – data on granted grants under competitions for offers organised pursuant to the Act of 24 April 2003 on public benefit and volunteer work	I/R /T	Output
	MAP: Location of sports initiatives (open competitions for offers)	Unit for cooperation with NGO – data on granted grants under competitions for offers organised pursuant to the Act of 24 April 2003 on public benefit and volunteer work	R/T	Output
	MAP: Number of degraded sports facilities	Unit for sport and sports infrastructure – data with regard to renovation needs of sport facilities to be included in the draft municipality budget	R/T	Output
	MAP: Location of cultural heritage objects adapted to performing new functions	Own studies of record cards of historical monuments under the municipality records of historical monuments	R/T /P	output
	MAP: Location of cultural heritage objects subjected to conservation, renovation, restoration or modernisation while keeping their current functions	Authority for the protection of historical monuments (Voivodeship Monument Conservator/City Monument Conservator) – data with regard to issued conservation permits for carrying out building work consisting in renovation or reconstruction of a historical object or conservation and restoration work	R/T /P	Output
	Number of publicly available sports facilities (exclusive of school sports facilities) per 1,000 pre-working and working age residents	Unit for sport and sports infrastructure/Unit for registration of population – with regard to data from the Register of residents of the municipality	T/R	Outcome
	Number of publicly available playgrounds (exclusive of school playgrounds) per 100 pre-working age residents	Authority competent for issuing decisions on building permits – with regard to issued permits for building playgrounds as well as reports on carrying out building	T/R	Outcome

		work related to building playgrounds/Unit for registration of population – with regard to data from the Register of residents of the municipality		
	Number of modernised sports and recreation facilities and leisure infrastructure	Unit for the municipality budget – with regard to expenses from the municipality budget related to sports and recreation infrastructure	T/R/I	Output
	Area of facilities which have been adapted to performing cultural, recreational and sports functions	Own studies with the use of data on expenses from the municipality budget related to sports and recreation infrastructure	T/R/I	Output
	Number of built, reconstructed or modernised places enabling the joint activity of residents, spending free time and development of hobbies	Own studies	R/T/I	Output
	MAP: Location of built/modernised facilities for sports purposes	Unit for the municipality budget – with regard to expenses from the municipality budget related to sports and recreation infrastructure	T/R	Output
	MAP: Location of community houses	Own study	R	Output
	Isochrones of travelling by foot to cultural objects	Unit for spatial planning – data with regard to urban planning analysis of existing development/Unit for culture – with regard to data from the Register of cultural institutions	R/T/I	Output
	Number of persons using social assistance due to poverty per 1,000 residents	Social Assistance Centre – with regard to data from the Register of decisions of persons using social assistance benefits/Unit for registration of population – with regard to data from the Register of residents of the municipality	R	Outcome, Impact
	Number of persons using social assistance due to disability per 1,000 residents	Social Assistance Centre – with regard to data from the Register of decisions of persons using social assistance benefits/Unit for registration of population – with regard to data from the Register of residents of the municipality	R	outcome
	Number of persons using social assistance due to alcoholism per 1,000 residents	Social Assistance Centre – with regard to data from the Register of decisions of persons using social assistance	R	Impact

	benefits/Unit for registration of population – with regard to data from the Register of residents of the municipality		
Number of persons using social assistance due to unemployment per 1,000 residents	Social Assistance Centre – with regard to data from the Register of decisions of persons using social assistance benefits/Unit for registration of population – with regard to data from the Register of residents of the municipality	R/P	Outcome
Number of persons using social assistance due to violence per 1,000 residents	Social Assistance Centre – with regard to data from the Register of decisions of persons using social assistance benefits/Unit for registration of population – with regard to data from the Register of residents of the municipality	R	Impact
Number of persons using social assistance due to helplessness per 1,000 residents	Social Assistance Centre – with regard to data from the Register of decisions of persons using social assistance benefits/Unit for registration of population – with regard to data from the Register of residents of the municipality	R	Outcome
Isochrones of travelling by foot to kindergartens	Unit for spatial planning – data with regard to urban planning analysis of existing development/Unit for education – with regard to data from the Register of schools and educational establishments	R/P	Outcome
Isochrones of travelling by foot to primary school	Unit for spatial planning – data with regard to urban planning analysis of existing development/Unit for education – with regard to data from the Register of schools and educational establishments	R	Outcome

Availability and quality of dwelling stocks in the municipality	Area of vacant municipal premises	Unit for the municipality dwelling stocks – with regard to the list of residential premises and the list of lease contracts	R/P	Outcome
	MAP: Location of multi-family buildings from before 1945	Own studies	R/T	Outcome
	MAP: Location of residential buildings built before 1970	Own studies	R/T	Outcome
	Percentage of residents having no access to the heating network	Operator of the heating network – with regard to the list of buildings with a connection to the central heating	R/T	Outcome

		network/Unit for registration of population – with regard to data from the Register of residents of the municipality		
	Number of buildings not connected to the heating network and to the gas network per 100 residents	Operator of the heating network/operator of the gas network – with regard to the list of buildings with a connection to the central heating network/gas network /Unit for registration of population – with regard to data from the Register of residents of the municipality	R/T	Outcome
	Number of buildings connected to the heating network or to the gas network together with liquidation of a solid fuel heat source	Operator of the heating network/operator of the gas network – with regard to the list of buildings with a connection to the central heating network/gas network/Unit for environmental protection – register of grants granted for liquidation of solid fuel ovens	R/T	Outcome
	Length of the water supply network to be renovated	Operator of the municipality water supply system – with regard to the list of data from the Plan of investment tasks	R/T/P	Outcome
	Percentage of residents affected by the problem of poor condition or lack of sewage infrastructure	Operator of the municipality sewage system – with regard to the list of data from the Plan of investment tasks/Unit for registration of population – with regard to data from the Register of residents of the municipality	R/T/P	Outcome
	Number of municipal facilities requiring renovation per delimitation unit	Unit for budget – list of removal needs regarding municipal infrastructure to be covered by the draft municipality budget	R/T	Outcome
	Percentage of dwellings without toilets	Own studies of administrators and managers of residential buildings	R/T	Outcome
	Percentage of dwellings without bathrooms	Own studies of administrators and managers of residential buildings	R/T	Outcome
	Percentage of residential premises in poor technical condition	Own studies of administrators and managers of residential buildings	R/T /P	Outcome
	Percentage of residents of reconstructed or renovated buildings in the total number of residents of municipal buildings	Unit for the municipality dwelling stocks – with regard to the list of residential premises and the list of implemented modernisation investments in buildings/Unit for registration of population – with regard to data from the	R/T	Outcome

		Register of residents of the municipality		
	Number of new residential premises built/modernised as part of low-cost building	District Construction Supervision Inspector - with regard to issued permits for the use of residential facilities meeting the criteria of low-cost building	R	Output

Institutional resources, integration and social capital of the municipality	Social organisations per 1,000 residents	Unit for cooperation with NGO – with regard to data from the Register of associations/Unit for registration of population – with regard to data from the Register of residents of the municipality	R/T/I	Outcome, Impact
	Share of expenses for grants to public benefit organisations in current expenses	Unit for the municipality budget – with regard to data resulting from the report on implementing expenses from the budget	R/T/I	Outcome, Impact
	MAP: Location of newly registered foundations, associations, social organisations	Unit for cooperation with NGO – with regard to data from the Register of associations	R/T/I	Outcome
	Number of participatory projects submitted by residents	Unit for social policy – with regard to reports on the execution of the participatory budget	R/I	Output
	Number of projects submitted to the participatory budget	Unit for social policy – with regard to reports on the execution of the participatory budget	R/I	Output
	Number of projects submitted to the participatory budget per 1,000 residents	Unit for social policy – with regard to reports on the execution of the participatory budget/Unit for registration of population – with regard to data from the Register of residents of the municipality	R/I	Outcome
	Number of votes for participatory budget projects	Unit for social policy – with regard to reports on the execution of the participatory budget	R/I	Output
	Turnout in the participatory budget elections	Unit for social policy – with regard to reports on the execution of the participatory budget	R/I	Output
	Number of local initiatives initiated by or implemented with residents	Unit for social policy – with regard to reports on the execution of the resolution on local initiatives	R/I	Output
	Number of social organisations involved in the implementation of	Unit for revitalisation policy – with regard to data from the	R/I	output

	the revitalisation programme	Report on social consultation regarding the draft revitalisation programme and the Report on monitoring and assessing progress in implementing the revitalisation programme		
	Percentage of municipal premises inhabited without the legal title in the total number of residential premises in the municipality dwelling stocks	Unit for the municipality dwelling stocks – with regard to data regarding the list of residential premises and data regarding terminated lease contracts for these premises/Unit for registration of population – with regard to data from the Register of residents of the municipality	R/P	Outcome
	Number of persons using social assistance due to helplessness in large families per 1,000 residents	Social Assistance Centre – with regard to data from the Register of decisions of persons using social assistance benefits/Unit for registration of population – with regard to data from the Register of residents of the municipality	R	Outcome, Impact
	Number of persons using social assistance due to helplessness in single parent families per 1,000 residents	Social Assistance Centre – with regard to data from the Register of decisions of persons using social assistance benefits/Unit for registration of population – with regard to data from the Register of residents of the municipality	R	Outcome, Impact
	Number of allowances granted due to the protection of maternity per 1,000 women of working age	Social Assistance Centre – with regard to data from the Register of decisions of persons using social assistance benefits/Unit for registration of population – with regard to data from the Register of residents of the municipality	R	Outcome, Impact
	Number of persons using social assistance due to helplessness in large families per 1,000 residents	Social Assistance Centre – with regard to data from the Register of decisions of persons using social assistance benefits/Unit for registration of population – with regard to data from the Register of residents of the municipality	R	Outcome, Impact
Safety level	Crimes against life and health found by the police in the completed preparatory proceedings per 10,000 residents	City (District) Police Headquarters – with regard to data from crime registers/Unit for registration of population – with regard to data from the Register of residents of the municipality	R/T/I	Outcome, Impact
	Crimes against property found by the police in the completed preparatory proceedings per 10,000 residents	City (District) Police Headquarters – with regard to data from crime registers/Unit for registration of population – with regard to data from the Register of residents of the	R/T/I	Outcome, Impact

		municipality		
	Traffic crimes found by the police in the completed preparatory proceedings per 10,000 residents	City (District) Police Headquarters – with regard to data from crime registers/Unit for registration of population – with regard to data from the Register of residents of the municipality	T/I	Outcome, Impact
	Number of cases of damage to property per 1,000 residents	City (District) Police Headquarters – with regard to data from offence registers/Unit for registration of population – with regard to data from the Register of residents of the municipality	R/T/I	Outcome, Impact
	Number of burglaries per 1,000 residents	City (District) Police Headquarters – with regard to data from crime and offence registers/Unit for registration of population – with regard to data from the Register of residents of the municipality	R/T/I	Outcome, Impact
	Number of crimes, offences and penal acts committed by juveniles (exclusive of traffic incidents and economic crimes) per 1,000 residents	City (District) Police Headquarters – with regard to data from crime and offence registers/Unit for registration of population – with regard to data from the Register of residents of the municipality	R/T/I	Outcome, Impact
	Number of criminal offences in total per 1,000 residents	City (District) Police Headquarters – with regard to data from crime registers/Unit for registration of population – with regard to data from the Register of residents of the municipality	R/T/I	Outcome, Impact
	Number of criminal offences against life and health per 1,000 residents	City (District) Police Headquarters – with regard to data from crime registers/Unit for registration of population – with regard to data from the Register of residents of the municipality	R/T/I	Outcome, Impact
	Number of criminal offences against property per 1,000 residents	City (District) Police Headquarters – with regard to data from crime registers/Unit for registration of population – with regard to data from the Register of residents of the municipality	R/T/I	Outcome, Impact
	Number of crimes against family and custody per 1,000 residents	City (District) Police Headquarters – with regard to data from crime registers/Unit for registration of population – with regard to data from the Register of residents of the	R/I	Outcome, Impact

		municipality		
	Number of penal acts committed by juveniles per 1,000 residents	City (District) Police Headquarters – with regard to data from crime and offence registers/Unit for registration of population – with regard to data from the Register of residents of the municipality	R/T/I	Outcome, Impact
	Percentage of penal acts committed by juveniles in the total number of crimes	City (District) Police Headquarters – with regard to data from crime and offence registers/Unit for registration of population – with regard to data from the Register of residents of the municipality	R/T/I	Outcome, Impact
	Number of offences and crimes per 1,000 residents	City (District) Police Headquarters – with regard to data from crime and offence registers/Unit for registration of population – with regard to data from the Register of residents of the municipality	R/T/I	Outcome, Impact
	Number of offences per 1,000 residents	City (District) Police Headquarters – with regard to data from offence registers/Unit for registration of population – with regard to data from the Register of residents of the municipality	R/T/I	Outcome, Impact

		municipality		
	Number of prohibited acts and police interventions per 1,000 residents	City (District) Police Headquarters – with regard to data from offence registers/Unit for registration of population – with regard to data from the Register of residents of the municipality	R/T/I	Outcome, Impact
	Number of police interventions per 100 residents	City (District) Police Headquarters – with regard to data from offence registers/Unit for registration of population – with regard to data from the Register of residents of the municipality	R/T/I	Outcome, Impact
	Number of traffic incidents per 100 residents	National Security Threat Map https://mapy.geoportal.gov.pl/iMapLite/KMZBPublic.html - data from the municipality	T/I	Outcome, Impact
	Number of city guard interventions na 100 residents	City (Municipality) Guard Headquarters – with regard to data regarding the number of reports/Unit for registration of population – with regard to data from the Register of residents of the municipality	R/T/I	Outcome, Impact
	Number of deaths due to fires per 100,000 residents	State Fire Service (City Headquarters/District Headquarters/ Voivodeship Headquarters) – with regard to data from reports on interventions related to fire-fighting actions/Unit for registration of population – with regard to data from the Register of residents of the municipality	T /P /I	Outcome, Impact
	Number of deaths due to natural disasters per 100,000 residents	State Fire Service (City Headquarters/District Headquarters/ Voivodeship Headquarters) – with regard to data from reports on interventions related to removing effects of natural disasters/Unit for registration of population – with regard to data from the Register of residents of the municipality	T /P /I	Outcome, Impact
	Time of response of rescue services from the moment of receiving the first call	Own studies of rescue service establishments	T /P	Outcome
Demographic	Number of working age residents per 100 residents	Unit for registration of population – with regard to data	P/I/R/T	Impact

situation		from the Register of residents of the municipality		
	Number of pre-working age residents per 100 residents	Unit for registration of population – with regard to data from the Register of residents of the municipality	P/I/R	Impact
	Dynamics of changes in the size of the population	Unit for registration of population – with regard to data from the Register of residents of the municipality	P/I/R	Impact
	Change in the number of post-working age persons	Unit for registration of population – with regard to data from the Register of residents of the municipality	P/I/R	Impact
	Number of births per 100 residents	Unit for registration of population – with regard to data from the Register of residents of the municipality	P/I/R	Impact
	Number of deaths per 100 residents	Unit for registration of population – with regard to data from the Register of residents of the municipality	P/I/R	Impact
	Number of persons newly registered for permanent and temporary residence	Unit for registration of population – with regard to data from the Register of residents of the municipality	P/I/R	Outcome, Impact
	Number of persons deregistered from permanent and temporary residence	Unit for registration of population – with regard to data from the Register of residents of the municipality	P/I/R	Outcome, Impact
Transport accessibility (external and internal)	Number of public transport (bus, tram, etc.) lines per 1,000 residents	Organiser of public transport – with regard to the number and location of public transport lines/Unit for registration of population – with regard to data from the Register of residents of the municipality	P/R /T	Outcome
	Average distance to a public transport stop	Organiser of public transport – with regard to the number and location of public transport stops/Unit for spatial planning – data with regard to urban planning analysis	P/R /T	Outcome
	Presence of areas with a distance of more 300 metres to a stop	Organiser of public transport – with regard to the number and location of public transport stops/Unit for spatial planning – data with regard to urban planning analysis	P/R /T	Outcome
	Percentage of residents living at a distance of more than 280 m to the nearest stop and of more than 350 m to a transfer junction	Organiser of public transport – with regard to the number and location of public transport stops/Unit for spatial planning – data with regard to urban planning analysis	P/R /T	Outcome

Number of stops per 1,000 residents	Organiser of public transport – with regard to the number and location of public transport stops/Unit for registration of population – with regard to data from the Register of residents of the municipality	P/R /T	outcome
Number of shelters and stops per 1 km ²	Organiser of public transport – with regard to the number and location of public transport stops	P/R /T	Outcome
Number of public transport runs on a working day	Organiser of public transport – with regard to the number of public transport runs	P/R /T	Output
Number of public transport runs on a working day per 1,000 residents	Organiser of public transport – with regard to the number of public transport runs/Unit for registration of population – with regard to data from the Register of residents of the municipality	P/R /T	Outcome
Number of new transfer junctions integrating various forms of transport	Organiser of public transport – with regard to commissioned new transfer junctions integrating various forms of transport	P/R /T	Output
Percentage of residents using public transport and bikes during their daily commuting	Organiser of public transport – with regard to the number of passengers transported by means of public transport/Own studies with regard to the level of using bikes in daily commuting	P/R /T	Outcome
Area of built, reconstructed or renovated pavements	Managers of public roads – with regard to implemented investments related to reconstruction, building, expansion and renovation of pavements	R /T	Output
MAP: Assessment of the surface of municipality roads	Managers of public roads – with regard to data from the Assessment of technical condition of public roads	P/R /T	Outcome
Percentage of municipal buildings around which it is required to reconstruct transport systems, renovate and improve the standards of roads	Managers of public roads – with regard to data from the Assessment of technical condition of public roads	R /T	Outcome
Area of parking lots per 1,000 residents	Badanie własne stanu zagospodarowania/Unit for registration of population – with regard to data from the Register of residents of the municipality	P/R /T	Outcome

	Area covered by the paid parking zone	Operator of the paid parking zone – with regard to data regarding the limits of the paid parking zone	P/R/T	Output
Spatial order and structure of the area	MAP: Area of sites which have been adapted to performing new functions	Own study (urban planning analysis) of the unit for spatial planning	I/R/T	Output
	MAP: Reconstructed or modernised public spaces which were assigned new functions	Own study (urban planning analysis) of the unit for spatial planning	I/R/T	Output
	MAP: Reconstructed or modernised public spaces which maintained new functions	Own study (urban planning analysis) of the unit for spatial planning	I/R/T	Output
	MAP: Location of modernised yards and public spaces	Own study (urban planning analysis) of the unit for spatial planning	R/T	Output
	MAP: Degraded public spaces	Own study (urban planning analysis) of the unit for spatial planning	R/T	Output
	Percentage of municipal buildings around which it is required to improve the quality of public spaces and green areas	Own study – with regard to data regarding development of the surroundings of the municipality dwelling stocks	R/T	Outcome
	Area of public areas covered by public intervention	Unit for municipality investments – with regard to data regarding implemented investments located in public spaces	I/R/T	Output
	Percentage of public spaces where spatial and architectural barriers have been removed	Unit for municipality investments – with regard to data regarding implemented investments located in public spaces – in the context of improving their accessibility	P/R/T	Output
Local natural environment	Annual average concentration of benzoalaphapyrene	Unit for environmental protection – with regard to data from air quality monitoring in the municipality	T/R/P	Outcome
	Annual average concentration of PM10	Unit for environmental protection – with regard to data from air quality monitoring in the municipality	T/R/P	Outcome
	Number of days with the exceeded average daily concentration of PM10	Unit for environmental protection – with regard to data from air quality monitoring in the municipality	T/R/P	Outcome
	Maximum average daily concentration of PM10	Unit for environmental protection – with regard to data from air quality monitoring in the municipality	T/R/P	Outcome

Annual average concentration of PM2.5	Unit for environmental protection – with regard to data from air quality monitoring in the municipality	T/R/P	Outcome
Exceeded level of acceptable concentration of PM2.5, PM10 or benzoalphapyrene	Unit for environmental protection – with regard to data from air quality monitoring in the municipality	T/R/P	Outcome
Percentage of residents exposed to the exceeded daily noise standard	Unit for environmental protection – with regard to data from noise pollution monitoring in the municipality/Unit for registration of population – with regard to data from the Register of residents of the municipality	T/R/P	Outcome
Percentage of residents exposed to the exceeded night noise standard	Unit for environmental protection – with regard to data from noise pollution monitoring in the municipality/Unit for registration of population – with regard to data from the Register of residents of the municipality	T/R/P	Outcome
Percentage of persons living in the area where traffic noise standards are exceeded	Unit for environmental protection – with regard to data from noise pollution monitoring in the municipality/Unit for registration of population – with regard to data from the Register of residents of the municipality	T/R/P	Outcome
Average intensity of traffic noise	Unit for environmental protection – with regard to data from noise pollution monitoring in the municipality	T/R/P	Outcome
Average intensity of railway noise	Unit for environmental protection – with regard to data from noise pollution monitoring in the municipality	T/R/P	Outcome
Average intensity of industrial noise	Unit for environmental protection – with regard to data from noise pollution monitoring in the municipality	T/R/P	Outcome
Number of eternit covered buildings	Unit for environmental protection – with regard to data from the inventory of asbestos products for the purposes of developing the Asbestos liquidation programme in the municipality by 2032	T/R/P	Outcome
Number of asbestos covered buildings per 1,000 residents	Unit for environmental protection – with regard to data from the inventory of asbestos products for the purposes of developing the Asbestos liquidation programme in the municipality by 2032/Unit for registration of population – with regard to data from the Register of residents of the	T/R/P	Outcome

		municipality		
	Weight of asbestos-containing products per 1,000 residents	Unit for environmental protection – with regard to data from the inventory of asbestos products for the purposes of developing the Asbestos liquidation programme in the municipality by 2032/Unit for registration of population – with regard to data from the Register of residents of the municipality	T/R/P	Outcome
	Weight of asbestos-containing products per 1 km ²	Unit for environmental protection – with regard to data from the inventory of asbestos products for the purposes of developing the Asbestos liquidation programme in the municipality by 2032	T/R/P	Outcome
	Total area (in m2) of asbestos-containing materials per delimitation unit	Unit for environmental protection – with regard to data from the inventory of asbestos products for the purposes of developing the Asbestos liquidation programme in the municipality by 2032	T/R/P	Outcome
	Distance from green areas	Unit for spatial planning – data with regard to urban planning analysis	T/R/I	Outcome
	Location in areas threatened by flooding	Own study with the use of data from the Flood threat map and Flood risk map http://mapy.isok.gov.pl/imap/ - data for the municipality	P/R/T	Outcome
	Location in areas covered by environmental protection forms (Natura 2000, nature reserve, landscape park)	Own study with the use of GDEP data from maps of Natura 2000 sites http://geoserwis.gdos.gov.pl/mapy/ and maps of protected areas available at geoportal.gov.pl http://mapy.geoportal.gov.pl/imap/lmgp_2.html?gpmap=gp0 – data for the municipality	P/R/T	Outcome
